Rose & Shore fully cooked heat and serve products are formulated so that they can be reheated and served several different ways. Once the product is heated to 160 degrees F, it is ready to be served.

THAWING INSTRUCTIONS

1. Remove bags from case.
2. Place in refrigerator for 24 to 48 hours prior to serving.
3. Alternatively, thaw bags in cold water.
4. DO NOT THAW AT ROOM TEMPERATURE AND DO NOT USE HOT WATER.

HEATING INSTRUCTIONS

1. For kettle cooking, place thawed bags in slow boiling water. Heat for 40 to 50 minutes.
2. For oven cooking, preheat the convection oven to 300 degrees F. Remove product from bags, place in trays and cover with foil. Heat for 45 to 60 minutes. Remove foil and stir.
3. Avoid using higher temperatures. Higher temperatures can cause the product to dry out while heating.
4. Probe the product to confirm that an internal temperature of 160 degrees F is reached. Heat further if required.
5. If the product is held for an extended period, make sure to cover. Add hot water if necessary and stir to reach desired consistency.
